

Biblical DISC® Assessment Distribution Policy

Rationale:

The use of the Biblical DISC® assessments within the DVULI program is supported by extensive instructor orientation and the provision of a carefully designed facilitation plan. The reason for that is that such use is controlled by the assessment provider, Lead Like Jesus, and only allowed under the supervision of licensed facilitators.

Distribution Policy - Approved Use & Required Support:

Given the rationale above, DVULI is permitted to re-distribute assessment licenses *for personal use only*. This scenario is where no one is providing any level of formal interpretation or training to the assessment user(s). For example, a DVULI participant (or graduate) who requests one or a few assessments for family members or colleagues is permitted.

For professional use involving group training and/or staff development, the person administering the assessments or facilitating the training will need to be properly credentialed. This is a scenario where one is presenting the Biblical DISC® assessment to a group of people in a formal training setting. If you are interested in presenting the Biblical DISC® assessment to a group of people, please contact the DVULI office for more information.
